

# MediBackup Cloud Backup

Built to protect businesses both large and small

MediBackup provides seamless and secure backup of your data to the cloud and takes care of the management and monitoring for you.

MediBackup Cloud Backup guarantees that your backups are:

- ✓ Secured and encrypted
- ✓ Scalable
- ✓ Fast and efficient

MediBackup Cloud Backup protects data at every stage of the cloud backup transaction.

- ✓ **AES 256-bit source side encryption**  
Strong local encryption protects your data from unauthorized access with up to 256-bit strong keys even before it is transmitted to the cloud.
- ✓ **SSL encryption on transit**  
Any data sent to the cloud is automatically encrypted using the hardened SSL protocols which eliminate the possibility of an outsider gaining access to it.
- ✓ **Server side encryption**  
All data are encrypted at rest in the data center.

MediBackup Cloud Backup is a seamless and secure backup solution for your Windows Server environment:

- ✓ **File Level Backup and Recovery**  
Choose individual files and folders to backup.
- ✓ **System State Backup and Bare Metal Recovery**  
Restore original Windows Server configuration or rebuild the entire system from the ground up.
- ✓ **SQL Server and MS Exchange Backup**  
Backup MS SQL Server databases as well as the MS Exchange mailstore.

In addition MediBackup Cloud Backup comes with the following features:

- ✓ Scheduling and Real-Time Backup
- ✓ Block Level Backup
- ✓ Bandwidth Throttling
- ✓ Purge Options
- ✓ Email Notifications

## Flexibility and Scalability with MediBackup Cloud Backup

- ✓ We don't charge you for what you don't need. MediBackup Cloud Backup can scale with your demands.
- ✓ MediBackup Cloud Backup doesn't lock you to one backup destination. You can keep backups in the cloud as well as locally on an external hard drive or any network location.
- ✓ Online access to your backups. Access, share and restore files from anywhere with web interface.
